WE'RE AT **HOME** AS CIVIL ENGINEERING MENTORS AND PROTÉGÉS.

WE'RE HOME AT **ASCE**.

In early 2007, ASCE began developing the ASCE Mentoring Pilot Program with 18 pairs of mentors and protégés from the ASCE San Diego Section who met via phone, e-mail or in-person regularly throughout the year.

Complementing this program, ASCE is launching an Online Mentoring module in spring 2008, that will enable protégés to benefit from an extended personal online network of mentors and professional peers to exchange ideas and peer-to-peer constructive feedback, advice, and information.

For more information about ASCE Mentoring Programs, visit www.asce.org/mentoring.
